Pentagon Wins Best SME Award

Pentagon's spectacular business transformation has been recognised and celebrated by UK manufacturing by winning in the Best SME category at the 2008 Manufacturer Live Awards held at ExCel Center, London.

The Manufacturer award for Best SME a new category for 2008 was presented by SAP UK Limited.

The UK's manufacturing sector is one of the most efficient, nimble and innovative in the world, and some of the best exponents of innovative design and rapid manufacture, all based around lean and agile processes are SMEs. For too long these unsung heroes of UK manufacturing have been unrecognised. This award category identified key organisations within the SME sector that have delivered remarkable performance and results.

Pentagon, an independent UK-based business owned by its management, is well on the way to the successful transformation of its businesses since acquiring long-established sites from blue-chip multi-nationals.

Pentagon's business model operates toll and contract manufacture agreements, along with a range of own products derived from an impressive array of technologies, including Phosgene, Grignard, Sodium dispersion, Maleic anhydride chemistry and Halogenation.
